PROFESSIONAL SUMMARY

Software Engineer with 4+ years of experience building secure, scalable backend systems, full stack web applications, and cross-platform mobile apps using Node.js, TypeScript, Next.js, Python (FastAPI, Flask), and React Native. Architected an enterprise SSO and MFA platform serving 15,000+ active users on AWS Serverless, cut cloud costs by 30%, and shipped 6 production apps to Google Play and the App Store. Skilled in REST API design, microservices, system design, LLM integration, and mentoring, using AI-assisted workflows (Cursor, Claude, AI agents).

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, SQL
Backend: Node.js, Express.js, FastAPI, Flask, RESTful APIs, Microservices, Authentication (JWT, OAuth 2.0, SSO, MFA), Swagger/OpenAPI
Frontend & Mobile: React.js, Next.js, React Native, Tailwind CSS, HTML5, CSS3
Databases & Search: PostgreSQL, MySQL, MongoDB, Elasticsearch, Database Schema Design
Cloud & DevOps: AWS, Serverless Architecture, Microsoft Azure, Docker, CI/CD, Git, GitHub
AI & Machine Learning: LLM Integration, OpenAI API, Prompt Engineering, AI Agents, NLP, BERT, Hugging Face, QLoRA, Random Forest, Pandas
Practices & Tools: System Design, Agile/Scrum, Code Review, Mentoring, Cursor, Claude

PROFESSIONAL EXPERIENCE

Software Engineer

SeeBiz Pvt Ltd | Lahore, Pakistan | Jul 2022 – Present

- Architected an enterprise Single Sign-On (SSO) platform with Node.js and Next.js on AWS Serverless, serving 15,000+ active users.
- Engineered MFA and cryptographic account-security workflows, blocking 99.9% of unauthorized access attempts.
- Integrated Elasticsearch for admin search and audit trails, reducing search query latency by 40%.
- Migrated legacy backend services to a serverless architecture, lowering cloud costs by 30% and accelerating deployments by 25%.
- Built RESTful APIs with Python (Flask, FastAPI) and MongoDB for mobile products, sustaining sub-200ms response times.
- Launched 4 React Native apps on Google Play and the Apple App Store: SeeCard, SeeTask, SeeBiz, and Krub.ai.
- Accelerated feature delivery with Cursor and Claude using custom project rules plus QA and backend AI agents.
- Led code reviews and mentored junior developers on code quality, performance optimization, and maintainability.

Software Engineer Intern

SeeBiz Pvt Ltd | Lahore, Pakistan | Jan 2022 – Jun 2022

- Designed 10+ database schemas and scalable backend services using MySQL and MongoDB.
- Implemented JWT authentication and input validation across 5+ microservices.
- Collaborated in Agile sprints on integration testing and debugging, maintaining 99.9% uptime during releases.

PROJECTS

Turnfeat – AI Freelance Marketplace

Technologies: React Native, Node.js, PostgreSQL, OpenAI API

- Built a React Native freelance marketplace with job posting, bidding, and milestone tracking; live on Google Play.
- Developed a Node.js and PostgreSQL backend handling escrow payments, contracts, and milestone releases.
- Integrated the OpenAI API to power AI-based skill matching between clients and freelancers.

PAKEZY – Regional Tourism App

Technologies: React Native, FastAPI, MongoDB, Maps API

- Built a React Native travel app for destination discovery and trip planning; published on Google Play.
- Engineered FastAPI and MongoDB geospatial APIs for location search and nearby-place queries.
- Designed map microservices so location features stay fast and scale independently.

AI Predictive Sales Analytics – Forecasting & Semantic Search

Technologies: Python, BERT, TAPAS, Random Forest, Pandas

- Built a Random Forest demand-forecasting model to predict product sales from historical data.
- Fine-tuned BERT for semantic product search and TAPAS for natural-language questions over sales tables.
- Designed ETL pipelines and data models to clean and prepare sales data for training and analysis.

EDUCATION & TRAINING

Bachelor of Science in Software Engineering | Gomal University, Dera Ismail Khan, Pakistan | 2017 – 2021

Professional Training: Artificial Intelligence (Machine Learning & Deep Learning) | 2024 – 2025

Neural networks, CNNs (VGG, ResNet-50), NLP, feature engineering, Azure Machine Learning
